To be assessed for the next level you must communicate with a referee trainer who will do an assessment and provide you with feedback.

- There are stages halfway between levels (e.g. J1.5) for referees who are committed and are close to reaching the next stage but require more time and experience at their current level. This comes with a \$0.50 pay increase.
- Senior referees are strongly encouraged to do the Level 1 and Level 2 BBNZ online and practical assessments to increase your experience and capability. Staff will communicate with you when these opportunities arrive.
